

Product Name		Pic.
Technical Parameters		 
Power Supply	AC220-240V/50HZ	
Dehumidify Capacity	20L / Day(30℃,80%)	
Power Consumption	380W	
Rated Current	2.1A	
Full Water Quantity	5.5L	
Noise	≤45dB(A)	
Air Circulation	180m³/hr	
Refrigerant /Charge	R134a	
Working Temp.	5°C-35°C	
Recommend Room Size	20~30m²	
Control Type	Electronic	
Status Indicator	Buker full signal light	
Timer	1-24hr	
Auto Defrost	Yes	
Ionizer	Yes	
Air Cleaning mode	Yes	
Body Size(mm)	335*240*587mm	
Package Size(mm)	385*286*625mm	
Net Weight	15kg	
Gross Weight	16kg	
Loading Quantity(20'/40'/40"HQ)	327/675/960 pcs	
Functions and Features		
1, Reciprocating compressor	2. Three -Minute Automatic Delay Protection of compressor	
3.Three Optional modes : Normal mode ; Drying cloth model ;Sleep model		
4, Caster wheel for easy portability	5, lonzer to purify air	
6, Humidity Control (20%-80%)	7.Auto stop and with indicator light when water tank is full	
8, With 1-24 hours timing function to set time when to turn on and turn off
